

ARROWQUINT CELEBRATE 30 YEARS AS ELTEX AGENT

During the recent Jubilee Celebrations held in Germany to celebrate 50 years of the Eltex Elektrostatik company, 3 of the 24 Eltex Agencies were awarded special plaques of honour in recognition of their many years of loyal and successful support. (Pictured Lukas Hahne, Managing Director of Eltex Elektrostatik, presents Suzanne Rendall of Arrowquint with special plaque and bottle of Champagne).

Of these 3 Arrowquint, the Agent for UK & Eire, celebrated having worked with Eltex for 30 years, which makes them one of the 2 longest-serving Eltex Agents.

Until 1985 the Arrowquint Agency was wholly part of Dalren Engineering who were also based in Gloucestershire. Since 1985, when they became a separate trading company in their own right, Arrowquint have built a strong reputation throughout the UK and Ireland for offering specialist static control services to the printing, packaging, converting, plastics and chemical sectors.

Arrowquint, as part of Eltex's global Agency network, both contribute to and benefit from the shared pool of knowledge on diverse applications of static control solutions.

Arrowquint say they can offer their customers in the UK and Eire an unrivalled level of expertise and knowledge in order to meet the needs of the ever-changing market and keep abreast of the technological development of individual production processes.

The Eltex name remains at the forefront for innovation in electrostatics and their reputation as market leader continues to spread across the globe through their extensive Agency network, from China to Thailand, South Africa to Australia, and Poland to the UK.
